Approved for Historic Preservation
Certificate of Appropriateness

05/24/16

Date: _____

Hi Alvah,

I've approved this HP permit, with these conditions:

1. Approved plans are the revised plans that call for fence and gate at the middle of the property to be even with the corner of the building stair addition, not the corner of the open porch as originally proposed.
2. All new fences are to be coated with a solid, opaque stain or paint.

This will serve as your notification of approval, until I have time to write a formal approval letter.
Please feel free to contact me with any questions.

Thanks,
Rob
