Good Morning,

I met with Jeannie to discuss the project at 966 Congress St/280 St. Johns St back on 9/8 (at that time, the permit app had already been electronically filed). Per our discussion, she suggested that I revise the permit app to better describe the work—this is attached. She also wanted drawings that included a key plan, wall types and wall sections—these have since been completed and are attached. Please also note that the original permit app had an address of 272 St Johns St—this was in error—it is actually 280 St John's St.

Please call with any questions.

Thank you,  
George

You are right to question because we did review these 2 separate permits as 1. Good call. WE will take care of the other one for you as well. Sorry for the confusion and thanks for the clarification.

Thanks. We understand that it has to go through review. We received 966 Congress St (272 St Johns St) and also submitted 966 Congress St (244 St Johns St) at the same time but haven't seen the review back yet. If it is still being reviewed that's fine. We just wanted to make sure the 2nd one didn't get overlooked since they both were at 966 Congress St.

Thanks,

Jason

All permits go through a review. Please see attached.

You can review permit status on line: <http://www.portlandmaine.gov/792/Permit-Status>

Received thanks! We'd like to come by and pick up both permits at the same time if they are both ready. Do you know if the permit for 244 St Johns St (966 Congress St) is also ready?. Let me know if you need anything else from us.

Thanks,
