Attn: Wayne

RE: 229 St. John St. (064 F001)

Dear Applicant,

Please be advised that the permit to install overhead security doors at the above property must be denied. There is insufficient information on the plans submitted to determine that the installation will occur in compliance with the manufacturer's specifications. The construction documents also are incomplete with regard to:

- 1) Construction documents must be provided showing the proposed installation in detail.
- 2) The Manufacturers specific installation instructions and specs.

Sincerely,

Mike Nugent
Manager of Inspection Services
