

La Quinta Inn

340 Park Ave

Portland ME 04102

Interstate has gone into the flood zone on the first floor of the hotel and made flood cuts at 2ft in all areas, some cuts were made at 4 feet per wicking of the water. We removed carpet and pad, and all effected room materials. We are replacing drywall, tape and mud all, paint, wallpaper and carpet back to original. Replace ceiling areas as needed from cleaning, new furniture and room materials to be installed for reopening of the hotel.
