GENERAL NOTES

- I. All work shall be in accordance with the State Plumbing Code, local codes and ordinances, National Fire Code (NFPA), or these plans or specifications, whichever is more strict.
- 2. All drawings are schematic only, and are intended to indicate the intent, extent, and general arrangement of work. They are not meant to show every fitting, change of direction or every situation. Verify locations in the field. Work indicated shall be furnished complete to perform the function intended.
- 3. Carefully coordinate the space requirements and location of piping with the other trade contractors.
- 4. All piping shall run concealed above ceilings, in walls, in soffits and in chases unless noted otherwise.
- 5. No structural members shall be cut without approval of the Architect.
- 6. All domestic water piping shall be insulated, except where indicated otherwise..
