Ann,

Sorry I missed your call.

Elite Storage Solutions is a manufacturer of pallet rack systems used in warehouses & distribution centers. We are supplying new pallet racking to the current occupant of the property, Ferguson Enterprises.

The scope of work is to remove the current racking & replace with new racking. This is an operational warehouse so we will be removing the existing rack & installing the new rack in phases so that they can remain operational. This will require phased inspections by the City as the plan is to relocate product currently stored in the next phase to be placed in the new rack when completed so we can remove the existing rack from that area & install the new, repeating this process until we have replaced all existing rack with new rack.

The tenant & use of the building remain unchanged. We are simply replacing the pallet racking.

Let me know if this sufficiently answers your questions.

Any assistance you can provide expediting our receipt of this permit will be greatly appreciated !

Mike
