

Opportunities for improvement in the insulation at the third floor sloped ceilings and the attic will be explored as construction is opened up during demolition.

#### CONSTRUCTION DRAWINGS

Existing & proposed elevations are provided in PDF format on Sheets A1 and A2, which also show the walls to be removed and those to be added.

New interior walls and ceilings are detailed in the notes above.

Given the scope of the proposed work, items such as window and door schedules, foundation plans, and stair details are not required for this permit application.
