Attachments: 481danforthamendment.pdf

I have filled out and attached a General Building Permit Application on behalf of Alex Feddersen, the homeowner, and have attached it here. I was unable to find a specific downloadable form for an amendment, so please let me know if this is not the correct form. I tried to send this directly through Adobe and the City's website but it does not seem to work.

Information that is cut off on the attached application is the project description and reads, in its entirety, as follows:

"2nd & 3rd floor updates to plumbing, electrical, life safety, insulation (including sistering new rafters to existing), replacing plaster with drywall, reconfiguring some of 3rd floor, adding closet on 2nd floor, and skylights".

The cost of work indicated is the cost of work for the interior renovations, not just this amendment.

I will submit a separate permit for exterior work after our upcoming meeting with the Historic Preservation Department.

Thank you for your help.
