PROJECT NOTES

- All work described by these documents shall be performed in full accordance with all applicable codes, including but not limited to the following codes: International Residential Code 2009, IEBC 2009, IECC 2009, NFPA standards, MUBEC Plumbing & Electrical Codes, all as adopted by the City of Portland, Maine.
- Drawings of existing facilities are, in general, diagrammatic. Exact locations shall be determined by the Contractor from field measurements taken by Contractor's personnel. Actual arrangement of the work shall follow locations shown on the drawings within the constraints of existing equipment and construction. Dimensions shall govern these drawings and they are not to be scaled. Drawing and notes to drawings are correlative and have equal authority and priority. Should there be discrepancies in themselves or between them, Contractor shall base bid pricing on the most expensive combination of quality and/or quantity of the work indicated. In the event of discrepancies, the appropriate method of performing the work and/or items to be incorporated into the scope of the work shall be determined by the Designer or Engineer.
- All dimensions are to face of framing unless noted otherwise.
- Existing windows in masonry openings to remain in Phase 1 unless damaged. Any required replacement windows will utilize existing masonry opening. Phase 2 will include replacing all windows in masonry building and will be under a separate permit. Windows without window tags are existing windows to remain.
- Existing exterior doors in masonry openings shall be replaced with new doors. Existing masonry opening to remain. Repair lintels as required. Typical of all exterior doors in masonry openings, unless noted otherwise.
- Provide blocking in all bathrooms for bath accessories and future grab bars.
- Provide blocking in walls for cabinets, shelves, mirrors, etc.
- Verify electrical requirements if any for any equipment or appliances shown on plans prior to commencement of work. Provide isolated ground wires as required by equipment manufacturers.
- HVAC system shall be a design/build system that, as a minimum, shall conform to codes/standards of the City of Portland.
