## 10. SOLID WASTE

### 10.1 MUNICIPAL SOLID WASTE MANAGEMENT

The proposed project will not result in any changes to solid waste management at the facility.

### 10.2 CONSTRUCTION AND DEMOLITION DEBRIS

As with any construction project, the proposed construction will generate construction waste and demolition debris (CDD). The contractor will be responsible for hauling the CDD, or contracting with a waste management service to haul the CDD, from the project site. The contractors will be fully responsible for handling, managing, and disposing of all waste generated by construction in accordance with Maine Solid Waste Management Regulations – 06-096 CMR 400-409. The contractors will be bound by contract to dispose of all materials in full accordance with all applicable local, state and federal regulations. The contractor will measure the actual waste volumes at the time of construction.
