
5. EVIDENCE OF FINANCIAL AND TECHNICAL CAPACITY

5.1 FINANCIAL CAPACITY

The project will be financed by Cianbro. Enclosed in Appendix D is a copy of a letter from TD Bank indicating that Cianbro has adequate financial capacity to complete the project.

5.2 TECHNICAL CAPACITY

The design and construction of the proposed sheet pile work is provided by Cianbro. Founded in 1949 by the Cianchette Brothers, Cianbro is one of the United States' largest, most diverse, successful, construction companies. Presently operating in more than 40 states, 12 markets, and employing over 4,000 team members, Cianbro manages and self-performs civil, structural, mechanical, electrical, instrumentation, fabrication, and coating. Cianbro has adequate technical capacity to complete the work as presented.

On behalf of Cianbro, Woodard & Curran is preparing this site plan application. Woodard & Curran has extensive experience with these types of projects and resumes can be made available upon request. Woodard & Curran is an over 800-person Portland based firm that has provided engineering services to the public sector for more than 30 years, including permitting, civil/site engineering, stormwater, and construction management services.
