Re: Homeland Security Entrance Modifications

Dear Marge:

Enclosed are our applications and supporting materials in connection with our need to modify our entrance to comply with U.S. Department of Homeland Security requirements. These materials have been reviewed by the City Planning office and are consistent with our earlier conversations.

The purpose of these changes is to allow more detailed, positive identification of all **persons** and vehicles entering or leaving our facility and to accomplish **this** in the most efficient possible manner resulting in minimum delays and backup outside our gate.

To achieve these goals the following elements will be included in **this** project:

- 1) expansion of travel lanes at our gate from 2 to 4
- 2) demolition of **our** existing scalehouse
- 3) addition of a prefabricated gate house
- 4) addition of a 6x8 prefabricated shelter for **personal** and baggage screening
- 5) addition of an overhead lighted lane identification system to facilitate traffic movement
- 6) addition of a Radio Frequency Identification (RFID) system for employees and regular visitors
- 7) addition of a video monitoring system to allow gatehouse personnel to see inside dump trailers

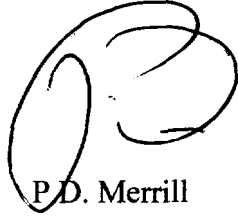

Cargo Transport Specialists Since 1929
601 Danforth Street • Portland, Maine USA 04102-3903

Tel: 207-772-3254 ext. 100
Fax: 207-761-3782
pdmerrill@merrillsmarine.com

Because of the complexities of installation of these various elements, it is crucial for us to get started immediately to conform to the federally mandated compliance date of July 1, 2004. To this end, we very much appreciate your prompt consideration and early issuance of the required permits.

Thank you .

Sincerely,

P.D. Merrill
