Preparation List for Spraying of Pesticides for Roaches.

- Remove all food that can potentially be contaminated.
 - Place all food in containers, cabinets or the refrigerator.
- Remove all animals from home.
- Remove any debris that may have fallen behind couches/chairs
- Remove all clothing/clutter from floor. (It is recommended to put clothing in bedrooms through a dryer on high for at least 30 minutes)
- Vacuum Thoroughly
- We will be spraying the perimeter of the room and the bases of furniture.
- You do not need to do anything after the spraying.
- Prepare to be out of your home for at least **1 hour** from the start of the treatment

If you should have any questions regarding these procedures, please do not hesitate to
