

M-Flex .006" and .005" 316 Liner

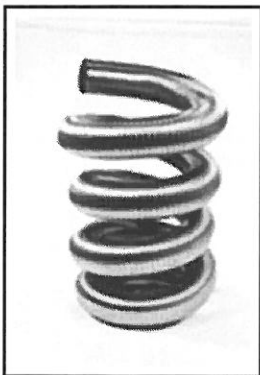

M-Flex chimney liner is made from 316L stainless steel and is designed to reline existing chimneys or to be used in new construction. It's corrugated construction allows for expansion and contraction during heat up and cool down periods, removing any stress on the system. M-Flex liner is UL listed by underwriter laboratories to UL 1777, 64, 441 standards. It can be used for wood, coal, oil, corn, and gas appliances. M-Flex liner has a lifetime, transferable warranty.

M-Flex .006" and .005" 316 Oval Liner

All M-Flex liner can be ovalized to fit your chimney's specifications.

M-Flex Smoothwall Liner

M-Flex Smoothwall liner has superior flexibility with a higher BTU capacity. Its smooth interior allows for more airflow, reduce drag by 20% over traditional corrugated liners. Smoothwall can be used to vent any appliance. Smoothwall liner has a lifetime transferable warranty.
