

Partition Type Notes

- All rated and smoke tight partitions are continuous through ceiling and sealed tight with fire rated sealant to the underside of decking / sheathing
- All stud walls under beams and decks shall have deflection joints.
- Provide tile backer board at walls scheduled to receive ceramic tile.
- Lay out steel studs to conform to 4'-0" module where required to install gypsum board vertically to comply with tested fire-rated wall assemblies.
- Penetrations through walls to be acoustically or smoke sealed shall have sealant system conforming to approved installations.
