---

Christina,

Following your e-mail of 9/28/15 I went to the site and verified the following;

- The elliptical sign itself is 11.6 square ft. (see attached elevation).
- The top of the elliptical sign is 4' - 11 ½" above grade (see attached elevation).
- The sign post nearest the lot line for this property is 7' – 6" distance from this line (see attached sketch plan).

I hope this information addresses your request. Thank you for your assistance with this permit.

Best,

**David Bateman, President | Bateman Partners, LLC**  
**470 Fore St, Suite 400 | Portland, ME 04101 | 207-772-2992**
