Brian,

Good morning. I am sorry this took a few days to get back to you but I wanted to try and make sure that when i did get the drawings back to you that they answered the issues and questions you and I had discussed. The drawings below are meant to replace all of the drawings in your system. All of these drawings have a "final" after the name so you can be sure that they are part of the most current set.

Please take a minute to review the drawings and let me know if there are any changes. I will follow up with a phone call later today and if you need anything further i am available all day by phone or text.

Best regards,  
Adam
