Subject: FW: Peaks Is Sewer Extension - Baxter Boulevard North Storage Conduit

Andy-

The following email trail is the communication with the City of Portland in advance to issuance of addendum 1 on the Peaks Island project concerning the waiving of fees associated with the building permit process. I also talked with Dave Pineo at the end of this week and questions from city staff concerning this should be directed to him.

Call with questions.

Subject: Peaks Is Sewer Extension - Baxter Boulevard North Storage Conduit

Thanks Brad. Let's assume the same on this.

Jeff-Tammy,

On the proposed Peaks Is sewer expansion, now out to bid, the building permit in this case would be for a generator building for the submersible pump station. Very similar to Baxter Blvd. We are requesting to waive the fees, not the permit. Thanks

I talked to Tammy Munson and since this is a city-owned and city-operated building, we should be able to waive the fees.

Brad- Let me look into what the track record is on City applicants paying permit fees. I would prefer not to have to charge, as long as that is feasible.

Good Morning Mr. Levine,

As part of my latest CSO project I will be installing a CSO control room in Payson Park.

I have received site plan and historic preservation approvals.

My next step is the building and electrical permit applications.

My questions is this - are the fees associated with these applications waived because it is a city project or shall Public Services pay Code Enforcement.

The building is a 10 by 10 precast concrete building for the electronic controls and monitoring equipment.

From a DPS standpoint I know we waive street opening fees for our own projects and wanted to check with someone before I write a check out.

Please let me know.

Thanks and enjoy the holidays.

Brad
