Good Afternoon Jason

I am processing your application request and cannot read the Project Description on the General Building Permit Application.

Can you email me that paragraph? I know you described in the email. I just want to add any further detail if necessary, for my reviewer.

Thank you in advance for your assistance.

Regards,

Sandy

Sandra Driscoll

Permit Technician

Permitting and Inspections Department

Room 315, 3rd Floor City Hall

389 Congress Street

Portland, ME 04101

Phone: (207) 874-8703

Thank you Sandra:

Here is the text. That space on the form just kept getting smaller and smaller as I typed :)

Following a past permit that was granted by Portland, a former owner, enclosed the porch of the home. However, there is still a wall separating the interior living space and the porch. We propose to remove that wall. One of the walls is load bearing. We hired a licensed engineer who provided the requirements for the post and beam sizing. We will insulate the walls, ceiling, and floor of the porch area, install an exterior door at the entrance to the porch, and relocate the baseboard heat from the wall that will be demoed into the exterior walls of the porch. Finally we will install pine boards on the walls and the ceiling.

Happy New Year!!

All my best,
Jason
