BUILDING PERMIT INSPECTION PROCEDURES

Please call 874-8703 or 874-8693 to schedule your inspections as agreed upon

Permits expire in 6 months, if the project is not started or ceases for 6 months.

The Owner or their designee is required to notify the inspections office for the following inspections and provide adequate notice. Notice must be called in 48-72 hours in advance in order to schedule an inspection:

By initializing at each inspection time, you are agreeing that you understand the inspection procedure and additional fees from a "Stop Work Order" and "Stop Work Order Release" will be incurred if the procedure is not followed as stated below.

W3 Pre-construction Meeting: Must be scheduled with your inspection team upon receipt of this permit. Jay Reynolds, Development Review Coordinator at 874-8632 must also be contacted at this time, before any site work begins on any project other than single family additions or alterations.

W7 ~~W7~~ Footing/Building Location Inspection: Prior to pouring concrete

N/A Re-Bar Schedule Inspection: Prior to pouring concrete

N/A Foundation Inspection: Prior to placing ANY backfill

W7 Framing/Rough Plumbing/Electrical: Prior to any insulating or drywalling

W3 Final/Certificate of Occupancy: Prior to any occupancy of the structure or use. NOTE: There is a \$75.00 fee per inspection at this point.

Certificate of Occupancy is not required for certain projects. Your inspector can advise you if your project requires a Certificate of Occupancy. All projects DO require a final inspection

N/A If any of the inspections do not occur, the project cannot go on to the next phase, REGARDLESS OF THE NOTICE OR CIRCUMSTANCES.

N/A CERTIFICATE OF OCCUPANCIES MUST BE ISSUED AND PAID FOR, BEFORE THE SPACE MAY BE OCCUPIED

YARD KING CEDAR, PINE OR TEXTURE

YARD KING ►

Big in function and value

We can't seem to decide if this is a generously sized shed, or a small barn. Whatever you call it, it holds plenty of tools, bicycles, pool equipment, boating gear and still leaves room for a large lawn tractor. The Yard King has become our best seller, featuring a set of large double doors as well as a second entry for quick and simple access to your smaller things. Available in 8'x16' and up.

Shown in Vinyl ▲

NOW IN MAINTENANCE - FREE VINYL!

Our high-quality storage sheds are now available with maintenance-free vinyl siding, solid vinyl doors and vinyl trim. Built with the same care and craftsmanship as our other buildings, the siding comes with a lifetime warranty.

Vinyl colors available:

Delivery Address: 146 Central Ave Peek Island, Me 04108

Phone: (Day) 766-5889 (Evening) Same

Amt. Due: 3351.20

*includes shipping
& setup.*

Remember the PERMIT is your responsibility. Please take care of it immediately.

If delivery is postponed after delivery has been confirmed - a redeliver/restocking charge is added to your invoice.

(For example, If the installers arrive and you didn't get your permit and the building inspector will not let them build / or a day or two before your installation is scheduled you change your mind and want to change the delivery date / this charge is applied.)

Delivery / Installation preparation information:

- * Have a fairly level and cleared spot. Meaning it is not out of level by more than 12 inches from corner to corner.
- * We also need two feet of clearance in the front and the back of the shed.
- * The installation crew will first lay concrete block approximately every 4 feet under the pressure treated foundation beams and then the floor is mounted to this and your shed is built.
- * We usually call to schedule your delivery at least a week in advance. We give you the delivery day and a two hour window. Our crews deliver several buildings per day and some may take longer than others to install.
- * Please allow crews to drive as close as possible to the installation spot. This will make their job much easier.
- * On the other hand, if you think that a small truck may damage your property just let the crew know.
- * We accept personal check, Discover, MasterCard or Visa for payment.
- * It is very important to seal and stain your building as soon as possible to prevent damage from the elements.
- * We recommend Arbortex™ wood Sealer & Stain. To see the available colors look in your Storage with Style brochure. If you decide to use Arbortex™, it can be shipped by UPS.

A Little Bit About Environmentally Friendly Arbortex™

Arbortex™ was originally developed by Post Woodworking, Inc. to keep our more than 600 display buildings in good condition year after year. After trying all of the top brands of sealer and stain on the market we could not find one that would give long lasting results. We wanted a stain that was a sealer and stain in one, would be able to make water bead, would have an exceptional ability to protect against ultraviolet light, would have an outstanding ability to inhibit mildew, would be easy to use, would be oil based for the best quality yet, at the same time, must be easy to clean up with soap and water. Finally, we wanted a product that was environmentally friendly. Next, we hired a chemist and after 3 years of research and development we created the Arbortex™ formula which allowed us to more than double the time that our buildings could stay on display without sealing and staining again. Imagine the savings we saw when we found that our 600 display sheds stayed looking good for more than twice as long as they did with the best sealers and stains on the market. After seeing the results and being contacted by major stain manufacturers and distributors about our formula, we have decided to keep our formula and offer it to our customers directly so that we can control the quality of our formula and keep a moderate price. Arbortex™ is also an excellent choice for sealing and staining your fence, porch, house or any other wood that needs the ultimate protection from the elements.

Your GP12x16 building requires 5 gallon(s) of Arbortex.™

As you can see, we are working to make everything go smoothly and will continue to do our very best until the last shingle is in place. We thank you for your cooperation.

LIMITED WARRANTY

With proper maintenance, Post Woodworking, Inc. warranties your building to maintain structural integrity for at least ten years and expects your building to last a full lifetime and more. we expect that when we have been gone a hundred years, many of our buildings will still be standing all over the United States. This warranty does not include doors and windows (for obvious reasons) or any building that has been altered in any way. The roof shingles are warranted for 20 years against leakage (natural disasters, damage by accident or neglect are excluded). Post Woodworking, Inc., gives no other guarantee expressed or implied, either oral or written.
