Kathy -

I'm all set with the zoning review for this but I spoke to Barbara and she is asking that you submit an Administrative Authorization for the work. Here is the body of her email:

*We asked for an administrative authorization for the Peaks Island Library and Reiche school. Let's do that here as well. I would like to have the calculation of the square footage of the replacement steps and the ramp. I did not see that in the application.*

I have moved the permit forward in the review process but can't sign off until the Administrative Authorization is approved.

Also, we have updated our permit applications and checklists. Please use the new applications for future city projects.

Thanks.

Ann

Hello Ann/Barbara,

I think I understand what your asking for.

Stair #2 - 119 Total sq ft for new Stairs and landings.

Stair # 4 - 292 Total sq ft for new ADA ramp and landings.

The alternates will not take place at this time..Please contact me asap if there are any issues. The prebid is next week so I would like to be able to confirm the permitting is in progress/place..Thanks

Hello Ann and Kathy:

I have looked at the site plan in the building permit and I am ok with the plan. I can sign off for planning on the building if you want Ann. I will not ask for an administrative authorization application for the ramps and steps.

Thank you.

Barbara
