PERMIT APPLICANT: owner

APPROVED: with conditions DENIED: \_\_\_\_\_

#1 #11 CONDITION(S) OF APPROVAL

- 1. This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work. — NO INCREASES without applying first
- 2. During its existence, all aspects of the Home Occupation criteria, Section 14-410, shall be maintained.
- 3. The footprint of the existing \_\_\_\_\_ shall not be increased during maintenance reconstruction.
- 4. All the conditions placed on the original, previously approved, permit issued on \_\_\_\_\_ are still in effect for this amendment.
- 5. Your present structure is legally nonconforming as to rear and side setbacks. If you were to demolish the building on your own volition, you will not be able to maintain these same setbacks. Instead you would need to meet the zoning setbacks set forth in today's ordinances. In order to preserve these legally non-conforming setbacks, you may only rebuild the \_\_\_\_\_ in place and in phases.
- 6. This property shall remain a single family dwelling. Any change of use shall require a separate permit application for review and approval.
- 7. Our records indicate that this property has a legal use of \_\_\_\_\_ units. Any change in this approved use shall require a separate permit application for review and approval.
- 8. Separate permits shall be required for any signage.
- 9. Separate permits shall be required for future decks, sheds, pool(s), and/or garage.
- 10. This is not an approval for an additional dwelling unit. You shall not add any additional kitchen equipment, such as stoves, microwaves, refrigerators, or kitchen sinks, etc. without special approvals.

11. Other requirements of condition This Dwelling is within Shoreland Zone and may not be increased in square footage or volume more than 30%. What you have submitted shows that you can meet this requirement.

## Submission Requirements Residential Construction

When a property owner is proposing either a new structure or an addition, this office requires:

- A plot or site plan, showing the shape and dimensions of the entire lot, all existing and proposed structures on the lot and the distance that the structures are from all lot lines. For a new dwelling the plan must be prepared by a registered design professional. For dwelling additions, the plan can be prepared by the owner or agent. (See Figure 1)

Figure 1. Typical Plot Plan

As can be seen, it is easy to establish the extent of compliance with the required setbacks and lot coverage.

- For new construction, structural alterations, or additions, plans showing structural details must be provided. Minimally they should include foundation plans, including drainage and support column spacing framing details, floor plans and a cross section. (See Figures 2, 3 & 4)

Figure 3. Typical Floor Plan

Figure 2. Typical Foundation Plan
