RE: 290 & 292 Island Avenue (087-T-009), Peaks Island - called "Berndt Parcel" and
308 Island Avenue (087-T-001), Peaks Island -- called "Gulliver Parcel" - IR-2 Zone

Dear Attorney Buchanan,

I am in receipt of your request for a determination letter concerning the division of property located at 290 & 292 Island Avenue, Peaks Island. The entire parcel is located in an IR-2 (Island Residence -2) zone with a Shoreland Zone overlay on a portion of the property. My determination is based upon an unstamped and unsigned survey by Gene Schleh of Northeastern Land Surveying. My determination is also based upon removal or relocation of a 12' x 12' outbuilding currently on the Berndt Parcel. This outbuilding shall be removed or relocated with the benefit of a permit.

Based on the above information, the proposed division of land containing two residential structures and the conveyance of land to an abutter does not constitute a reviewable subdivision. A subdivision by definition is the division of land in common ownership into three lots. The State and City Subdivision regulations exempt divisions accomplished by the transfer of any interest in land to the owners of abutting land. Because there is a proposal to convey approximately 3,780.4 square feet to the abutting owner(s) of the Gulliver Parcel, this proposal is only a two lot division and does not rise to the level of a subdivision review.

I have reviewed the chain of title submitted so that I can determine whether the conveyance of 3,780 sf from the Berndt Parcel to the Gulliver Parcel would result in a buildable lot of record as defined and allowed under § 14-433 as it applies to property on Peaks Island. With the addition of the 3,780 sf of land conveyed to the Gulliver Parcel, I have determined that the New Gulliver Parcel will become a buildable lot under § 14-433. However, this letter does not grant permissions to build. Separate application(s) are required for complete reviews and approvals. This letter only addresses the buildable lot issue.

I can further affirm that the remaining division of land of the Bendt Parcel into two separate lots as shown on the submitted survey will result in two conforming lots as allowed under § 14-422 and conforming to the dimensional requirements of the IR-2 zone. Again as stated previously above and within your letter to me, this determination is based upon the removal or relocation of the outbuilding shed prior to the act of division.

RE: Request for Zoning Determination

Dept. of Building Inspections
City of Portland Maine

Dear Marge:

*290-292 Island Ave / 308 Island Ave
87-T-9 87-T-1*

I am writing to request a zoning determination letter in regard to adjacent parcels of Peaks Island property, one of which is currently owned by my clients, John and Jean Gulliver, and the other which is to be purchased by a pair of entities (for the purpose of this letter, "the LLCs").

The Gullivers own the land on the corner of Island Avenue and City Point Road, which has a tax map designation of 87-T-1 and a street address of 308 Island Avenue. This lot has frontage on both Island Avenue and City Point Road. I have attached to this letter a recent survey by Northeastern Land Surveying (the "Existing Conditions Survey"), which shows it to have an area of 4,681.7 sf. For the purpose of this letter, I will call this lot the "Gulliver Parcel."

The property that the LLCs plan to purchase is owned by Peter Berndt. It is located at 290-292 Island Avenue and designated on the assessing maps as 87-T-9. For the purpose of this letter, I will call this the "Berndt Parcel." The Existing Conditions Survey shows the Berndt Parcel to have an area of 46,481.2 sf.

Under the Portland Land Use Code (the "Code"), both the Gulliver and Berndt Parcels are wholly in the IR-2 zone. Both are served by public water and sewer.

I also am enclosing with this letter another full-size survey recently completed by Northeastern Land Surveying (the "Proposed Plan"), which shows a proposed division of the Berndt Parcel. As you can see from the Proposed Plan, my clients' intention is to:

57 Exchange Street, Portland, Maine 04101-5020

Telephone (207) 772-1262 Telecopier (207) 772-1279 E-mail: counsel@wacubu.com

(a) First, convey to John and Jean Gulliver in their individual capacities 3,780.4 sf from the Berndt Parcel to make the Gulliver Parcel 8,462.1 sf in size (the "New Gulliver Parcel");

to be built upon
(b) Second, create from the balance of the Berndt Parcel two legally conforming buildable lots, the northerly of which would be 20,148.1 sf in size with 132.11 feet of street frontage and the southerly of which would be 22,552.7 sf in size with 70 feet of street frontage.

My clients are seeking a determination from you as to the following points:

1. Will the proposed division of the Berndt Parcel as outlined be exempt from the subdivision regulations in the Portland Land Use Code?

The Code's definition of "subdivision" in §14-493 makes specific reference to the definition contained in Maine statute, 30-A M.R.S. §4401. Subsection (4) (D-6) of that definitional provision states: "a division accomplished by the transfer of any interest in land to the owners of land abutting that land does not create a lot or lots for the purposes of this definition, unless the intent of the transferor is to avoid the objectives of this subchapter."

As I understand this provision, if the LLCs (or one of them) conveys 3,780 sf from the northerly end of the Berndt Parcel and adds it to the Gulliver Parcel, that would not count as a division, for the purpose of zoning, because the Gullivers own the abutting lot. Is this interpretation correct? *conveyed to an abutting*

2. If 3,780 sf of the Berndt Parcel is added to the Gulliver Parcel, will the result be a legally-conforming buildable lot of record under Section 14-433 of the Portland Zoning Ordinance?

It is my understanding from informal discussions with you that with the exception of its current area (4,681.7 sf, according to the Existing Conditions Survey), the Gulliver Parcel meets the Portland Zoning Ordinance's Section 14-433 definition of a buildable lot of record, as that definition applies to property on Peaks Island. As is set forth in the attached title summary and deeds, the Gulliver Parcel was a discrete lot as of July 15, 1985, has been held under separate and distinct ownership from adjacent lots since that time, and meets the applicable street frontage requirements in the current ordinance, which are at least as stringent as the street frontage requirements that existed in 1985¹.

In order to have a building envelope of sufficient size that would meet all applicable yard dimensions, my clients propose to use approximately 3,780 sf of the Berndt Parcel to

¹ I do not believe it is necessary to research the 1985 frontage requirements, because the Gulliver Parcel as modified would have 88.25 feet of frontage on Island Avenue and 125.38 on City Point Road, well more than the current 70-foot minimum.

enlarge the Gulliver Parcel to 8,462 sf. This would exceed the 5,000 sf minimum size for a lot of record in IR-2 served by both public water and sewer.

I am requesting a formal determination from you that, if this area is added to the existing Gulliver Parcel, the New Gulliver Parcel will become a buildable lot under §14-433.

3. If the balance of the Berndt Parcel is divided into two lots as shown on the Proposed Plan, will each of these be a buildable conforming lot under the current IR-2 zoning regulations?

The LLCs would divide the remainder of the Berndt Parcel into two lots, each of which would meet the IR-2 Zone minimum lot size of 20,000 sf. The Plan shows the proposed division line. I know you have met with Gene Schleh of Northeastern Land Surveying to discuss issues relating to yard dimensions, so you probably are aware that the plan is to remove or relocate the existing shed. Assuming the shed removal or relocation occurs prior to the division, my read of the Code is that the division being proposed also would meet the dimensional requirements applicable in the zone. Can you confirm whether my understanding is correct?

Please note that my clients are aware that a portion of each parcel lies within the 250-foot shoreland zone setback, and all land uses and activities within that area will need to conform with the standards and regulations set forth in Division 26 of the Code.

If this letter and the enclosed plans are not sufficient for you to make a determination, or if I have not explained my questions clearly enough, please feel free to call.

I have enclosed the \$150.00 determination fee.

Thank you for your assistance, Marge.

Best regards,

Brenda M. Buchanan
