Hi all, Ann left an amended site plan with me for 14 Centennial Street on Peaks Island before she left for vacation. The proposed change (increasing the foot print) has no impact on the original DRC site plan approval. I'm ok with this amendment.

Feel free to contact mw with any questions. Thanks.

Ann:

A check is on the way - Bill Bunton's wife Mellissa will be dropping it off. And yes, there will be an additional \$10,000 in cost to the project, and so I calculated the fee to be \$120. The original fee was \$2,520 based on a project cost of \$250,000.

Gerald -

How is the permit going to be paid for? What is the cost difference between the original cost proposed and the new cost? This will be considered an amendment to the original permit which costs \$30 and then it is \$10 for each \$1000 of work for any additional cost above the original cost. The permit cannot be submitted until the fee is paid.

**Comments:**

6/8/2010-amachado: Need to do a little more research before call architect.

6/9/2010-amachado: Spoke to Gerald Weinand. Need full size scalable plans. He said that the owners wanted to use the same footprint but raise the roof on the gable part, relocate the footprint, flipping it 180 degrees & rotate it to be parallel with the road. I told him that rebuilding a legally nonconforming structure means keeping the same shell. He asked about section 14-436(a) but I said that had restrictions with raising the roof etc. We talked about using the average of the yards on either side on Centennial to be able to slide the building forward and meet the 25' rear setback. If this works then could build the proposed building and not be constrained by section 14-436. We would need a chain of title. He said that he would get back to me.

6/14/2010-amachado: Received revised siteplan & scalable building plans on June 11, 2010. Proposed house is now meeting the average front yard setback. Spoke to Gerald Weinand. Need copy of the notices to abutters regarding the demolition. Need deed going back to July 1985 to show that lot of record. Need complete siteplan that shows all the requirements for a new single family home. Need to permit two existing sheds and bring them into compliance.

6/22/2010-amachado: Received Chain of title for 087 NN004 & 005. Received copy of demo letter to abutters.

7/1/2010-gg: received additional site plans as of 06/29/2010. Site plans are with permit, gave to Ann. /gg

7/2/2010-amachado: Spoke to Gerald Weinand. Site plan needs to show that lot 8 is part of the property. The two sheds need to be permitted and the 10' x 12' shed needs to be relocated to meet the 15' side yard setback.

7/9/2010-amachado: Received revised siteplan including lot #8 as part of the plan. Also the plan indicates that the shed will be relocated to meet the setbacks. Spoke to contractor at the counter. The owner is going to separate the application into a demo permit and the new single family home permit.

7/16/2010-amachado: Received separate demolition permit for the property.

## **BUILDING PERMIT INSPECTION PROCEDURES**
