Dear Marge,

We have been working on the renovation/reconstruction of a property at 14 Centennial Street on Peaks Island, a property adjacent to our primary residence. After much debate, as you know, we have come to the conclusion that the property will be dramatically improved and more in compliance with city regulations if we tear down the original structure and rebuild at a place on the lot more in keeping with setback requirements. In order to do this most efficiently, we request permission to use the remaining skeleton of the old house as a workshop/storage area for equipment and materials during construction of the new house.

It is not our intention to keep the structure beyond completion of the new house. We are willing to provide this letter as a personal guarantee that the old structure will be removed at our expense within 60 days of completion of the new house. Our hope is to have the new house completed by May 1, 2011, assuming we can start the project by August 1, 2010. We hope this letter will suffice as a good faith assurance of our intention to remove the old structure once the new one is completed to your satisfaction.

Please feel free to contact us if you have further questions about our plans for improving this property.

Sincerely,

  
William B. Zimmerman
