Dear Alice and Chris,

Here are photos of the planting. There are 6 trees spaced evenly over the hill. They're hard to see at the moment...when they leaf out I could take another photo so you can see it better.

Martha

Thank you! If any of the trees do not survive over the next three years, please be sure that they are replaced. I will consider this case closed. If any further cutting/replacement questions come up in the future, please do not hesitate to reach out to me.

Best,  
Chris
