Hi Ann. I understand there is a ZBA hearing this evening regarding violations regarding Covey Johnson's horse barn.

For what it's worth, I'd like to submit my opinion to the board that having horses reside are good for the island (to maintain it's more rural character).. as is Covey's barn/land, where various horse owners can find accommodations for them. His barn and horse yard (what are the right words to describe this ?) fit well in its immediate, middle of the island, surroundings. It is unfortunate that is a dispute regarding this operation.

But as to golf cart rentals.... but, that's not for today ! Thanks. Ann.

.....
