RE: 16 Ocean St  
CBL: 090-C-014

Dear Mr. Edwards:

A second evaluation of your property at the above location with Michael Nugent and myself on June 8, 1999, revealed that the hole you had excavated has been backfilled, and you have no water surfacing at this time. So it is the conclusion of Mike Nugent that you have no failure at this time, any further expansion or addition to your subsurface system does require a permit.

I will consider that the questions of my May 25<sup>th</sup> letter have been satisfied and you need not present any further documentation to this office.

Sincerely,

Tom Reinsborough  
Code Enforcement Officer
