Donald McPherson - Re: Sprinkler System

From: Benjamin Wallace
To: Chris Pirone; Desiree Kelly; Donald McPherson; Tammy Munson
Date: 7/9/2012 4:15 PM
Subject: Re: Sprinkler System
CC: Danielle West-Chuhta; Gary Wood
Attachments: Fwd: FW: Letter of Compliance and Test Certificate - 499 Island Ave. Peaks Island; Benjamin Wallace.vcf

Hi Desiree,

The Captain is out on Mondays. He should be back in tomorrow morning.

I understand from Harry King of Dean & Allyn (sprinkler contractor) the system has not been charged as required and he now believes that the owner has no intention of charging it or keeping it charged. There has been some discussion with this office that he might drain the system down when he drains the domestic water at the end of the season because he would not be occupying it and the building is unheated or insulated; however he did have to recharge it each spring before he could reoccupy it. Bottom line is no occupancy unless the system is charged and signed off by the sprinkler contractor. The only other possibility is for him to convert it to a dry sprinkler system which I'm not sure can be done and if it could be would be expensive.

I suggest that with the issues right now a fire inspector needs to be there for the final and it needs to be clear on his C of O when he gets one that the building can not be occupied without the sprinkler system charged in service and maintained.

I've asked John Martell to put it into his schedule for Thursday morning.

Don- Will you let him know if Thursday morning is going to happen or not for the final? The letter the sprinkler contractor sent simply states that it was installed and tested; not that it is charged and maintained.

Thanks,
Ben

>>> Desiree Kelly 7/9/2012 11:42 AM >>>
Chris and Tammy,

I was sent a call from the City Managers office from a Ron Delucia, 499 Island Ave, Peaks Island. He is very angry and mentioned the word law suit which is why I've included Gary and Danielle on this email.

He took out a building permit in February of this year to build a cottage out on Peaks Island. He was angry he had to put in a sprinkler system but did it anyway. Now he doesn't want to charge the system with water because he has to drain the water every winter when he closes up the cottage. He wants his certificate of occupancy but from what I gather can't get it because of this. Don McPherson has been out to property many times and has the information needed to provide you with more background. Is there some sort of waiver for sprinkler systems? If not could someone give him a call back? His number is 617-283-6622. Please let me know when this has been resolved since he has my name.

Thanks,

Desiree

BUILDING PERMIT INSPECTION PROCEDURES

Please call 874-8703 or 874-8693 (ONLY)

or email: buildinginspections@portlandmaine.gov

With the issuance of this permit, the owner, builder or their designee is required to provide adequate notice to the city of Portland Inspections Services for the following inspections. Appointments must be requested 48 to 72 hours in advance of the required inspection. The inspection date will need to be confirmed by this office.

- **Please read the conditions of approval that is attached to this permit!! Contact this office if you have any questions.**
 - **Permits expire in 6 months. If the project is not started or ceases for 6 months.**
 - **If the inspection requirements are not followed as stated below additional fees may be incurred due to the issuance of a "Stop Work Order" and subsequent release to continue.**
1. Footings/ Setbacks (Note: Review Subsurface Inspection Requirements)
 2. Backfill Inspection
 3. Close-In: (Electrical, Plumbing, Framing)
 4. Final Inspection

The project cannot move to the next phase prior to the required inspection and approval to continue, REGARDLESS OF THE NOTICE OF CIRCUMSTANCES.

IF THE PERMIT REQUIRES A CERTIFICATE OF OCCUPANCY, IT MUST BE PAID FOR AND ISSUED TO THE OWNER OR DESIGNEE BEFORE THE SPACE MAY BE OCCUPIED.

PERMIT ISSUED

MAY - 4 2011

City of Portland

PORTLAND MAINE

Strengthening a Remarkable City, Building a Community for Life • www.portlandmaine.gov

Director of Planning and Urban Development
Penny St. Louis

Job ID: 2011-02-428-SF

Located At: 499 ISLAND AVE.

CBL: 090 - - Q - 001 - 001 - - - -

Conditions of Approval:

Zoning

1. This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work.
2. As discussed during the review process, the property must be clearly identified prior to pouring concrete and compliance with the required setbacks must be established. Due to the proximity of the setbacks of the proposed structure, it may be required to be located by a surveyor.
3. This property shall remain a single family dwelling. Any change of use shall require a separate permit application for review and approval.

Fire

1. New single family home requires a sprinkler system installed according to NFPA 13D.
2. Sprinkler permit requires approval from State Fire Marshal's Office. Capt. Gautreau

Building

1. Separate permits are required for any electrical, plumbing, sprinkler, fire alarm HVAC systems, heating appliances, commercial hood exhaust systems and fuel tanks. Separate plans may need to be submitted for approval as a part of this process.
2. Stairway headroom shall be not less than 6 feet 8 inches measured vertically from the sloped plane adjoining the tread nosing or from the floor surface of the landing or platform.
3. A graspable handrail (34-38 inches in height) shall be provided on at least one side of each continuous run of treads or flight with four or more risers. Fall protection from exterior decks may be required if floor joist are at or above thirty (30) inches from grade.
4. Energy Efficiency (N1101.2.1) "R-Factors of Walls, Floors, Ceilings, Building Envelope must be submitted to this Office prior to close-in or backfill.
5. A photoelectric Carbon Monoxide (CO) detector shall be installed in each area within or giving access to bedrooms. That detection must be powered by the electrical service in the building and battery.
6. Hardwired photoelectric interconnected battery backup smoke detectors shall be installed in all bedrooms, protecting the bedrooms, and on every level.
7. R311.5.1 Attachment. Exterior landings, decks, balconies, stairs and similar facilities shall be positively anchored to the primary structure to resist both vertical and lateral forces or shall be designed to be self-supporting. Attachment shall not be accomplished by use of toenails or nails subject to withdrawal.
8. Glass glazing required adjacent to stairways when exposed surface of the glass is less than 60 inches above the nose of the tread.
9. Attic access (22 by 30 inch) is required in compliance with Sec. R807.
10. Engineered beams specifications shall be submitted to this office.

11. Window sills in locations more than 72 inches from finished grade shall be a minimum of 24 inches above the finished floor of the room, unless a window fall prevention devices is installed in accordance with section R612.3. **Note: a code compliant egress window (or emergency escape) is required in each bedroom.**

DRC

1. The Development Review Coordinator reserves the right to require additional lot grading or other drainage improvements as necessary due to field conditions.
2. The applicant shall have a licensed surveyor install, prior to the issuance of any Certificate of Occupancy, permanent monumentation/pins identifying property corners.
3. A street opening permit(s) is required for your site. Please contact Carol Merritt ay 874-8300, ext. 8822. (Only excavators licensed by the City of Portland are eligible.)
4. All damage to sidewalk, curb, street, or public utilities shall be repaired to City of Portland standards prior to issuance of a certificate of occupancy.
5. The Development Review Coordinator (874-8632) must be notified five (5) working days prior to date required for final site inspection. Please make allowances for completion of site plan requirements determined to be incomplete or defective during the inspection. This is essential as all site plan requirements must be completed and approved by the Development Review Coordinator prior to issuance of a Certificate of Occupancy. Please schedule any property closing with these requirements in mind.
6. Two (2) City of Portland approved species and size trees must be planted on your street frontage prior to issuance of a Certificate of Occupancy.
7. All Site work (final grading, landscaping, loam and seed) must be completed prior to issuance of a certificate of occupancy. A performance guarantee will be required to cover the cost of site work not completed due to seasonal conditions ie., finish grading, loaming, seeding, mulching, installation of street trees, etc. The performance guarantee must be reviewed, approved, and accepted by the Planning Authority prior to the release of a Temporary Certificate of Occupancy.
8. Erosion and Sedimentation control shall be established and inspected by the Development Review Coordinator prior to soil disturbance, and shall be done in accordance with Best Management Practices, Maine Department of Environmental Protection Technical and Design Standards and Guidelines. All Erosion and Sedimentation control measures must be inspected and maintained daily.

General Building Permit Application

If you or the property owner owes real estate or personal property taxes or user charges on any property within the City, payment arrangements must be made before permits of any kind are accepted.

Ann Machado - Re: Fwd: FW: 499 Island Avenue-Site Plan

From: Philip DiPierro
To: Clark, William
Date: 3/10/2011 12:19 PM
Subject: Re: Fwd: FW: 499 Island Avenue-Site Plan
CC: Machado, Ann

Great, thanks Bill. I'll pass this on to Ann in Zoning so she can assess the setbacks.

Phil

>>> William Clark 3/10/2011 11:18 AM >>>
Hi Phil,

Sorry to take a week to get back to you.

The plan looks good. It ties into City monuments so we can insert it into GIS.

One thing I noticed was setbacks. The fact that the 102.90' and 104.80' long lines converge as they bear away from Island Avenue shortens the building setback of 20.00' by 0.06' and 0.19'. Doesn't bother me, but I just thought you may want to know. I have attached the calculation worksheet showing the setbacks of the 20' by 50' house.

Thanks,

Bill

>>> Philip DiPierro March 3, 2011 8:48 AM >>>
Hi Bill, when you get a chance, can you please take a look at this survey and let me know if you feel as though it meets our current standards.

It's a single family home on Peaks Island that is proposed to be built after the existing house is demolished.
Thanks.

Phil

>>> "MacIsaac, Joanne" <JMacIsaac@trojb.com> 3/2/2011 6:04 PM >>>

Ann and Phillip

Please see survey (2 drawings) from Owen Haskell, this is in addition to the site plan prepared by the architect for 499 Island Ave Peaks Island

One drawing shows just the existing conditions and the other shows the existing and proposed new.

Please let me know if there is anything else you need.

Thank you

Hi Ann

How are you. Good I hope. I am checking in as I don't know what if anything I should be doing? I have been in contact with Phil and he has given me his comments regarding the site plan – I know I need to answer those but he suggested that I check in with you before I do that -wondering what is next?

Are you reviewing the house for compliance with building codes or is that someone else?

We are hoping to start demo by the end of the month but don't want to do that until we have a building permit....

Regards

Joanne.

Ann Machado - Re: FW: 499 Island Avenue-Site Plan

From: Philip DiPierro
To: Dobson, Lannie; MacIsaac, Joanne; Machado, Ann
Date: 3/4/2011 12:58 PM
Subject: Re: FW: 499 Island Avenue-Site Plan

Hi Joanne, following are my comments for your recent single family site plan submission.

Survey:

- I have not had any comments from our engineering department, so for the time being I have to assume that the survey meets the minimum standards.

Site Plan:

There are still some items missing from the checklist. Please revise the site plan to include the following information.

- The zoning district, setbacks, and dimensional requirements need to be shown on the site plan.
- Please show the driveway dimensions on the site plan. Please be advised that the minimum separation between existing and proposed driveways is 20 feet measured at the property line. In addition the driveway width measured at the property line must be between 10 feet and 20 feet.
- Please relocate the water line so that it does not run through your leach field. The water line must be located at least 10 feet from the edge of the leach field, septic tank, and sanitary piping. Have you submitted a septic design to the Inspections office yet?
- Please extend your erosion control measures along both sides of the site, outside all proposed disturbed areas, to the rear property line.
- Please include the locations of the 2 street trees, meeting the City's minimum arboricultural standards.
- Please include the soil type of the property.
- If you propose to grade the site outside the boundaries of your ownership, you will need to obtain permission and a construction easement/license from the City. Otherwise you should revise your site plan so that no disturbance or grading occurs in the City's right-of-way.

Zoning:

- You should contact Ann Machado directly for comments on Zoning. Ann is currently out of the office until next Thursday or Friday. You may want to talk to Ann before you submit a revised site plan.

Feel free to contact me with any questions. Thanks.

Phil

499 Island Ave

Summary of Changes

Foundation

- incorporated step down foundation wall at the front and sides of the house under porch
- replace concrete beam at front with wood beam on wood post
- returned front foundation wall in front
- eliminated on set of windows
- reduced basement clear height to 7'6" so that standard forms (7'11) could be used
- reduced size of footing to 18"x 8" (8" is the minimum in some cases 11")
- reduced thickness of foundation wall to 10"
- reduced rebar
- increase floor joist on first floor to 14" from 12" (owner request not structural)
- eliminated shelf detail for floor joist on first floor
- reduced top of wall to 39' to minimize grading

Other

- revised some of the awning windows to double hung windows on the second floor (they are 2' above the finished floor)
- adjusted the key heights floor to floor to maintain the same overall building height as approved.
- provided an alternate roof material (shingles) for pricing consideration

WARRANTY DEED

I, Daniel Murphy, Jr. of 186 Belvidere Street, Springfield, Massachusetts 01108 for valid consideration, the receipt of which is acknowledged, grant to Dorothea R. Murphy of 186 Belvidere Street, Springfield, Massachusetts 01108

with warranty covenants

A certain lot of land with the buildings thereon near Trefethen's Landing, on Peaks Island, in Portland in the County of Cumberland and State of Maine, bounded and described as follows:

Beginning at an iron marker at the intersection of the easterly sideline of Belvidere Road and the southerly sideline of Island Avenue; thence northeasterly by the sideline of Island Avenue, sixty (60) feet, more or less, to an iron marker in the westerly sideline of land, now or formerly owned by Anna Mitchell and Adele Rouyon; thence southeasterly by said sideline of said Mitchell land and Rouyon land one hundred three (103) feet, more or less, to a stake on the sideline of land now or formerly owned by Susie M. Merrill; thence southwesterly by said Merrill land sixty (60) feet, more or less, to an iron marker in the easterly sideline of Belvidere Road; thence northwesterly by the sideline of Belvidere Road, one hundred five (105) feet, more or less, to the point of beginning.

Being the same premises conveyed to the grantor and grantee by deed of Fred M. Kroschel, Jr. dated February 23, 1962 and recorded at the Cumberland County Registry of Deeds at Book 3103, Page 408.

Signed and sealed this 6th day of August, 1996.

Dorothea R. Murphy
