Compliance: Passes using UA trade-off

Compliance: 18.7% Better Than Code Maximum UA: 262 Your UA: 213

The % Better or Worse Than Code Index reflects how close to compliance the house is based on code trade-off rules. It DOES NOT provide an estimate of energy use or cost relative to a minimum-code home.

Compliance Statement:	The proposed building design described here is consistent with the building plans, specifications, and other	
calculations submitted v	ith the permit application. The proposed building has been designed to meet the 2009 IECC requirements in	n
REScheck Version 4.6.0	and to comply with the mandatory requirements listed in the REScheck Inspection Checklist.

Inspection Checklist

Energy Code: 2009 IECC

Requirements: 0.0% were addressed directly in the REScheck software

Text in the "Comments/Assumptions" column is provided by the user in the REScheck Requirements screen. For each requirement, the user certifies that a code requirement will be met and how that is documented, or that an exception is being claimed. Where compliance is itemized in a separate table, a reference to that table is provided.
