File: Rept. 80118-I

April 23, 1937

Mr. David MacVane,
Cliff Island,
Maine

Dear Sir:

I am told that the building which you have proposed to move from near the wharf at Cliff Island to another location on Island Avenue, is already on the way to the new location, although the permit which you have from this office is preliminary only and does not cover landing the building on the new foundation.

I am not disposed to stop the work of moving the building, but we would like a little better cooperation.

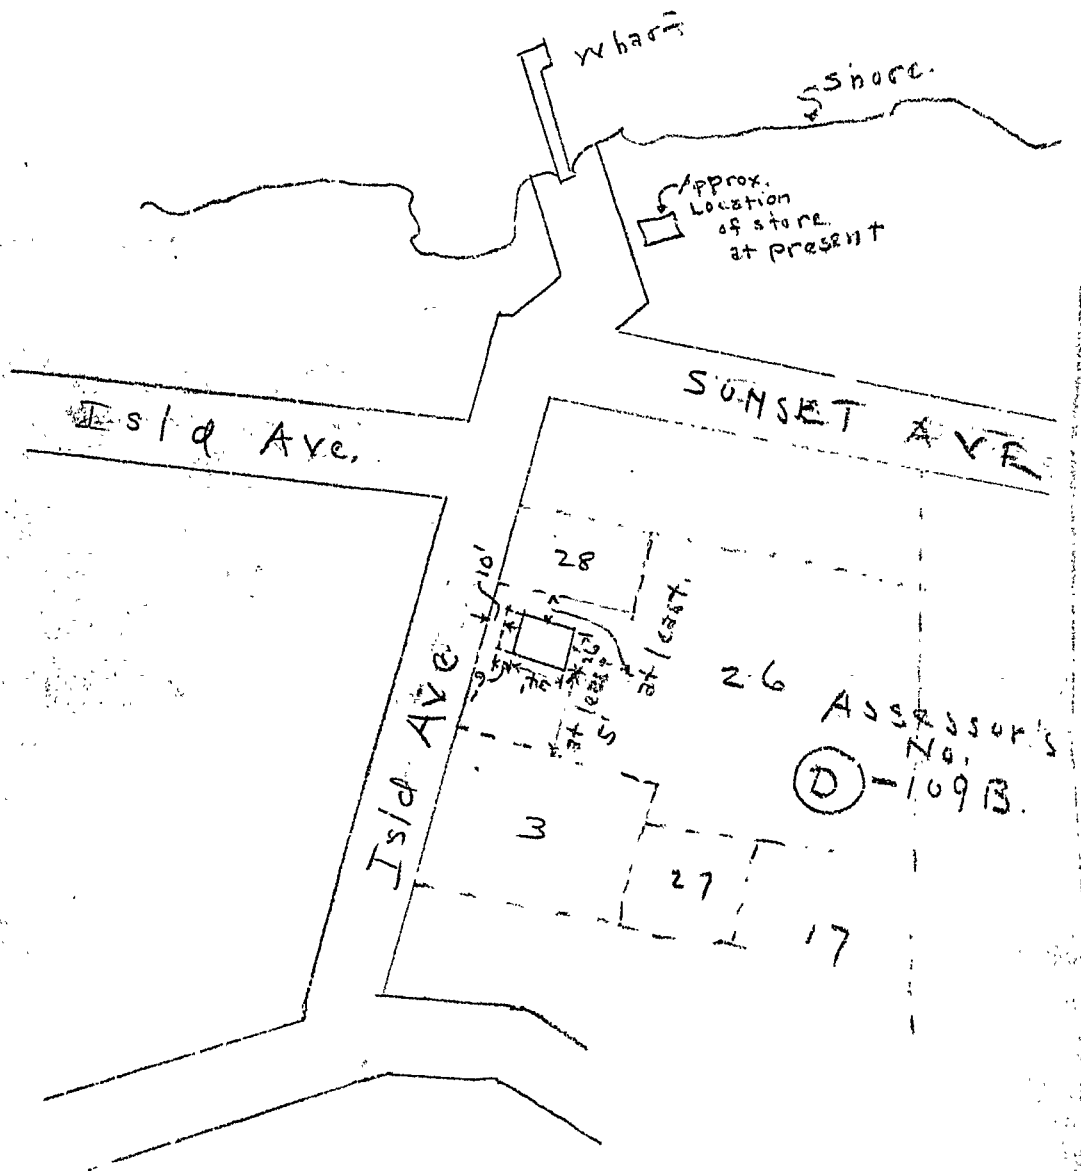

It seemed to be clearly understood that we could not issue the final permit until you had given us the details of framing of the piazza.

Please let me have these details of framing on or before April 27, 1937, whereupon, if the details are satisfactory and in compliance with the Building Code, the final permit will be issued.

Very truly yours,

McD/H

Inspector of Buildings

My dear Mr. MacKerrell:

Enclosure sketch
showing location of buildings on the
Benton Property Cliff Island.

The shed measuring 13' x 17' which
has a height of 12 ft to the Eaves and
19' to the peak of roof, is the building that
was moved. The measurement to the road
is taken to the side of the used highway, and
not to the surveyed side line as I had
no way of knowing the location of the latter.

I believe the city line is about 110' instead
of the 118 as shown

BOX 61
CLIFF ISLAND, MAINE

2.

Mrs. Benton asked me to give you
these figures and, to hurry, so there wasn't
time to render a real drawing in ink, so please
pardon the pencil sketch, but it may
serve your purpose.

It is not entirely Mrs. Benton's fault
that the building was moved without a
permit as she had been told that one
was unnecessary, as it was on her own
property and did not have to cross a
road. If I can be of any help to you
feel free to call upon me.

Cordially yours,

William S. Black.
