

GENERAL APPLICATION
OVERBOARD DISCHARGE (OBD) < 2,000 GPD

WDL Application #: W003167, SA-C.R Municipality: PORTLAND (CLIFF)
Application for: [X] Residential [] Commercial
[X] Renewal [] Transfer [] Renewal & Transfer [] Amendment

STEP 1. Applicant/Facility Information

- 1. Applicant Name: ROGER K. REZLE
2. Mailing Address: 11 ORSIS LANDING, FALMOUTH, ME 04105-1649
3. Phone Number: (207) 981-5334 e-mail: RKREZLE@MCN.COM
4. OBD Facility E-911 Street Address: 7 REBBER'S ROAD, CLIFF ISLAND

- Is this application for the transfer of an existing license? [] Yes [X] No
• Is this application for a commercial OBD license? [] Yes [X] No

STEP 2. Site Evaluation

Prior to license renewal and/or transfer, a Licensed Site Evaluator (LSE) with demonstrated experience in designing replacement systems for OBDs must evaluate the property to determine whether there is a technologically-feasible alternative to the OBD system. You must submit a copy of the LSE's report of findings with this application.

- [] A qualified LSE has determined that the OBD system CAN be replaced with a subsurface alternative, but I have not been offered grant money for the removal of the OBD.
[X] A qualified LSE has determined that the OBD system CANNOT be replaced.

STEP 3. Facility Information

Department rule, 06-096 CMR 596, requires that the licensed discharge volume be limited to the lesser of the volume limit of the previous license or the volume equal to the actual or estimated volume produced by the facility connected to the OBD during the 12-month period prior to June 1, 1987. Please provide the following information. Estimated flow is based on the number of bedrooms. See Page 2 of this application.

- 1. How many dwellings were connected to the OBD as of June 1, 1987? -1-
2. Total number of bedrooms in all dwellings as of June 1, 1987? -3-
3. Type of use as of June 1, 1987? [X] year-round [] seasonal [] not determined

Check one:

- [X] I certify that the facility was used on a year-round basis as of June 1, 1987.
[] I concur that the facility was used on a seasonal basis only as of June 1, 1987.

4. If you have a *mechanical OBD system*, you must maintain a service contract with a Department-approved, Grade II wastewater treatment operator or Maine Registered Professional Engineer.
Do you have a current contract? Yes No Contractor name? N/A

STEP 4. Public Notice

1. Complete the PUBLIC NOTICE form attached to this application.
2. The notice must be mailed by certified mail or Certificate of Mailing to abutters, as determined by local tax records or other means, and to the municipal office of the municipality(ies) where the OBD is located. Alternatively, an applicant may hand-deliver the public notice provided each abutter provides written, signed receipt of the notification.

STEP 5. Certification of Application Information and Authorized Signature

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

- I understand that by signing below, I (the applicant or authorized agent) certify that I have:
1. Sent a completed copy of the Public Notice to the owners of the property abutting the land upon which the OBD is located within 30 days of filing of the application; and
 2. Sent a completed copy of the Public Notice by certified mail and filed a duplicate of this application and supplemental materials with the town clerk or city clerk of the municipality where the OBD is located.

Additional Signature(s) Print name and title of additional applicants Date

If there are multiple properties connected to the treatment system authorized by this license, all property owners contributing wastewater flows to the OBD must sign this application or authorize one party to act as the agent.

License flow limitations based on total number of bedrooms in existence as of June 1, 1987.

TOTAL NUMBER OF BEDROOMS AS OF JUNE 1, 1987	LICENSED FLOW LIMITATION IN GALLONS PER DAY (GPD)
3 OR LESS	300
4	360
5	450
6	540
7	630
8	720
9	810
10	900
Each additional bedroom	90

PUBLIC NOTICE
MAINE WASTE DISCHARGE LICENSE APPLICATION

Please take note that, pursuant to 38 MRSA, Sections 413 and 414-A, ROBERT BEZLE of
7 REARER'S ROAD
CLIFF ISLAND (name)
(address) intends to file a wastewater discharge license application with the Department of

Environmental Protection (DEP). The application is for the discharge of 300 GALS. of
(volume)
secondary treated sanitary wastewater to the CASCO BAY in CLIFF ISLAND,
(receiving water) PORTLAND, Maine.
(municipality)

The application will filed on or about 7/12/10 and will be available for public inspection at DEP's
(date)

Augusta office during normal business hours. A copy may also be seen at the municipal offices in

PORTLAND
(municipality)

A request that the Board of Environmental Protection assume jurisdiction over this application must be received by the DEP, in writing, no later than 20 days after the application is found acceptable for processing and requests for a public hearing must be received by the DEP, in writing, no later than 30 days after the application is found acceptable for processing. Requests shall state the nature of the issue(s) to be raised. Unless otherwise provided by law, a hearing is discretionary and may be held if the Commissioner or the Board finds significant public interest or there is conflicting technical information.

Public comment will be accepted until a final administrative action is taken to approve, approve with conditions or deny this application. Written public comments or requests for information may be made to the address below.

Submit completed application to:

Re: Overboard Discharge Evaluation, 7 Reamer's Road, Cliff Island, Portland, Maine
Overboard discharge license #W003167-5A-B-R

On June 15, 2010, I completed a site evaluation of the parcel located on the corner of Wharf Road and Reamer's Road, Cliff Island, and Portland, Maine for the possibility of replacing the existing overboard discharge system with a subsurface wastewater disposal system. This parcel is also noted as 109B-C-07 in the City of Portland tax records. This parcel is approximately 10,500 square feet in area and is approximately 80 feet wide and 170 feet long. There is one water supply well on the parcel. Abutting parcels are also serviced by on-site wells some drilled, some dug. The site is fairly level sloping toward Wharf Road.

The soils are shallow to ledge with any where from 0 to approximately 8 inches of soil over ledge. I have included with this letter a sketch of the parcel supporting this information. In my professional opinion, there are neither suitable soils nor adequate setbacks on the parcel to site a subsurface wastewater disposal system which is capable of meeting the required regulations and the existing overboard discharge system is the only currently viable option for wastewater disposal. If you have any questions or require additional information please contact me.

Sincerely,

Mark J. Hampton L.S.E., C.S.S.
