BUILDING PERMIT INSPECTION PROCEDURES

Please call 874-8703 or 874-8693 (ONLY)

or email: buildinginspections@portlandmaine.gov

With the issuance of this permit, the owner, builder or their designee is required to provide adequate notice to the city of Portland Inspections Services for the following inspections. Appointments must be requested 48 to 72 hours in advance of the required inspection. The inspection date will need to be confirmed by this office.

- **Please read the conditions of approval that is attached to this permit!! Contact this office if you have any questions.**
- **Permits expire in 6 months. If the project is not started or ceases for 6 months.**
- **If the inspection requirements are not followed as stated below additional fees may be incurred due to the issuance of a "Stop Work Order" and subsequent release to continue.**

Required Inspections:

1. Close In Elec/Plmb/Frame prior to insulate or gyp
2. Final Inspection

The project cannot move to the next phase prior to the required inspection and approval to continue, REGARDLESS OF THE NOTICE OF CIRCUMSTANCES.

IF THE PERMIT REQUIRES A CERTIFICATE OF OCCUPANCY, IT MUST BE PAID FOR AND ISSUED TO THE OWNER OR DESIGNEE BEFORE THE SPACE MAY BE OCCUPIED.

Director of Planning and Urban Development
Penny St. Louis

Job ID: 2011-11-2595-DRG

Located At: 175 BEACH RD

CBL: 109D- A-011-001

Conditions of Approval:

Zoning

1. This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work.
2. This property shall remain a single family dwelling. Any change of use shall require a separate permit application for review and approval.
3. The detached barn shall be no higher than 18' from average grade to the mid-point of the sloped roof. It is further understood that this barn is for storage and is not intended for human habitation. Any such change of use will require a separate permit and approval.

Building

1. Application approval based upon information provided by applicant. Any deviation from approved plans requires separate review and approval prior to work.
2. The attic scuttle opening must be a minimum 22" x 30".
3. Fastener schedule per the IRC 2009
4. Separate permits are required for any electrical, plumbing, sprinkler, fire alarm, HVAC systems, heating appliances, including pellet/wood stoves, commercial hood exhaust systems and fuel tanks. Separate plans may need to be submitted for approval as a part of this process.
5. Frost protection must be installed per the enclosed detail as discussed w/owner/contractor.
6. The design load spec sheets for any engineered beam(s) / Trusses must be submitted to this office.
7. AS per conversation with George Trojan (Contractor) this permit is approved with the above conditions however; a new framing plan shall be submitted to this office before close-in inspection. The city will approve either a structural ridge with the 1'6" knee wall or plan approved with no knee walls with rafters resting directly on the floor.

**BARN
VER. 2**

WORK PERFORMED:

**CLIFF ISLAND
PORTLAND, ME 04019**

RECEIVED
OCT 25 2011
Dept. of Building Inspections
City of Portland Maine

DESCRIPTION OF PROJECT:

(See Drawings)

→ original structure
Never had a - see G-Drawings

The project entails a reconstruction of a partial freestanding structure. This structure is a detached barn, which is lacking a roof system. The roof system was removed due to code violations.

The estimate includes the following:

1. 6-Sheet set of plans depicting methods and material of the barn
2. Living situation while doing project
3. Full estimate listing method and materials.

The code violations have been addressed in the set of plans. One issue, which complicates the project is the stair case construction, because of code issues pertaining staircase construction. There are structural load issues which need to be redirected in order to install the staircase. The other issue which makes the staircase difficult is sufficient headroom.

This project is on an island, which is off the coast of Portland, Maine. This project is logistically challenging, because of living quarters, materials, and equipment. Some of the details pertaining material and equipment movement are difficult to outline at this period of time. However, the living situation will entail staying @ the McLaughlin's home while construction of the barn is occurring. Great regard will be taken in the McLaughlin's home.

The equipment & materials will be ferried onto the island; it is uncertain how many trips will occur, however details will be determined at a later date.

This bid proposal includes the construction services of American Building & Design, which entails material, and labor. The cost associated in getting materials onto the island are not include in this bid proposal.

This bid proposal doesn't include the following:

1. Interior/exterior paint-prep & painting other than interior primer- **Not budgeted**
2. Building permit fees, submitting permit - **Not budgeted**
3. Transportation cost associated with equipment & materials onto the island - **Not budgeted**

The project includes the following methods/materials/accessories:

DEMOLITION:

The demolition is extensive, and will involve all aspect of residential construction.

FOUNDATION/FOOTINGS:

NA

- Existing

WATER PROOFING:

The waterproofing includes the following:

- A. Copper face and L-Flashing sky-deck
- B. Drip cap
- C. Window wrap tapped

DECK FOOTINGS:

NA

FRAMING:

The framing of the will be done in a traditional manner. The following materials and methods will be used:

Platform:

A. 2 x 10 KD - Rim Joist (Rotted rim joist on East side) ✓

Wall System:

B. 2 x 4 KD - Plates/Studs ✓

C. 5/8" T1-11 Sheathing ✓

Girders:

D. (2) 2 x 10 KD Flush girder for Pull Down staircase

Roof System:

E. 2 x 10 KD - Rafters

F. 2 x 12 + KD - Rafters ✓ *Plane*

E. 2 x 10 KD - Ceiling Joist ✓

G. Flush Eaves

H. 5/8" OSB Sheathing ✓

Staircase:

I. Pull Down Staircase

ROOFING:

A. "Water & Ice" Grace 6'-0 from eve ✓

B. Alum. 8" drip cap ✓

C. 15 lb. felt ✓

D. Architectural shingles ✓

SIDING & BOXING:

1. Siding = 5/8" x T1-11

2. Corner boards & Flat casing = 1 x 4 Pine

3. Fascia = 1 x 8 Pine

4. Rake = 1 x 4 Pine

5. Sophite = Pine

WINDOW SYSTEMS:

(2) 2'-8" x 4'-10" Builder grade Double-Hung windows \\
1st Floor Windows will be used "As Is"

SKYLIGHT:

NA

DOOR SYSTEM: BASIC EXTERIOR DOOR/HOME DEPOT

NA

DRYWALL:

NA

TRIM:

BUILT IN CABINETS:

NA

KITCHEN:

NA

ELECTRICAL:

NA

HEATING/COOLING:

NA

PLUMBING:

NA

FINISHED FLOORING:

NA

PAINTING:

NA

PORTO-JOHN:

NO

DEBRIS:

All construction debris will be placed in one are of the property. Construction debris is a real issue on this project. An effort will be made to segregate materials for burn piles.

PERMIT:

The homeowner will purchase the building permit. The general contractor will coordinate and submit the building permit.

In order to obtain the building permit - A. Building Plans

B. Fill out permit

C. Plot Plan

SUBCONTRACTORS:

NA

TIME FACTOR:

Long hours will be spent so that the project may be completed timely. Once the project begins American Building & Design/George A. Trojan Jr. will work on the project on a daily basis to complete the project.

TOTAL COST OF PROJECT:

\$18,855.00**

EGHTEEN THOUSAND, EIGHT HUNDRED, FIFTY-FIVE DOLLARS

“Change Orders will be subject to an increase in the total cost pending labor and material cost. This increase will be paid in full when the change order begins.”

CONDITIONS OF CONTRACT:

1. Bid price expires in thirty days.
 2. Insufficient checks will result in a \$30.00 fee along with all other payments being paid in full with either cash or cashiers checks.
 3. Out of state checks are **NOT** accepted.
 4. The building Contractor is **NOT** responsible for the welfare of pets.
 5. Although the building contractor will clean throughout the duration of the project. Bid proposal is not responsible for vacuuming, mopping, dusting, window cleaning, etc.
 6. Building Contractor is **NOT** responsible for any related landscaping.
 7. If a collection agency or legal council is needed to collect delinquent payments (Any reason), all costs will be paid in full by the homeowner.
 8. It is expected that materials and tools will be stored at the site of the project.
 9. Related constructions vehicles will be allowed to park in/use the homeowners Driveway if needed.
 10. If the homeowners relieve the building contractor from the project (any reason). all materials, and equipment will remain in ownership of American Building & Design. American Building & Design will be the only person(s) to collect property.
 11. There will **NOT** be any money penalties for the length of the project.
 12. Any unforeseen obstacles, such as electrical, plumbing, heating, telephone, cable (cat-5), ant damage, water damage, and mold are not covered by this proposal unless specified. A change order will result in the event of such events.
 13. In the event hazardous waste is discovered on the project, the homeowner will be responsible for all cost associated with clean-up.
 14. The building contractor is not responsible for pet injury or death.
 15. In the event that George A. Trojan Jr. (owner) cannot complete the project for reasons that are deemed extreme (serious injury or death of general contractor), the homeowner will return all related equipment to Mrs. Christine Trojan within ten days (10) of work stoppage. Any remaining phases that need to be finished will be completed by a general contractor that American Building & Design has chosen prior to the start of the project (**Trojan General Contractors est. 1977**).
- The completion of the project by **Trojan General Contractors** will be based on the schedule of **Trojan General Contractors** (completion of Trojan General Contractors current project will take priority) and the contract and financial agreements that were signed at the start of this project.

PAYMENT PLAN:

THE FOLLOWING PAYMENT WILL BE EXICUTED

1. SIGN CONTRACT	\$	1.00
2. MATERIAL ORDER PLACED	\$	7,500.00
3. BEGINNING OF 1ST WORK DAY	\$	3,000.00
4. ROOF FRAMING COMPLETED	\$	3,000.00
5. SIDING INSTALLED	\$	3,000.00
6. ROOFING BEGINS	\$	2,204.00
7. COMPLETION OF PROJECT	+	\$ 150.00
		\$ 18,855.00

Rainbow Attic Stairs Model #	Stairs Color	Stairs Rough Opening Size	Stair Frame Dimensions	Tread Width	Unit Weight	# of Steps	Floor to Ceiling Height Range	Attic Stairs Projection	Landing Space
M2236 - as assembled	WHITE	22 1/2" X 36"	22" x 35 1/2"	12"	100 lbs	9	7'-4" to 7'-10"	24"	45"
- Add one step						10	Over 7'-10" to 8'-6"	30"	47"
- Add two steps						11	Over 8'-6" to 9'-6"	35"	49"
M2254 - as assembled	YELLOW	22 1/2" X 54"	22" x 53 1/2"	12"	117 lbs	9	7'-4" to 8'-2"	8"	50"
- Add one step						10	Over 8'-2" to 9'-0"	12"	53"
- Add two steps						11	Over 9'-0" to 9'-10"	16"	57"
M2254H - as assembled	ORANGE	22 1/2" X 54"	22" x 53 1/2"	12"	124 lbs	12	9'-10" to 10'-8"	24"	61"
- Add one step						13	Over: 10'-8" to 11'-6"	26"	65"
M2554 - as assembled	BLUE	25 1/2" X 54"	25" x 53 1/2"	14"	119 lbs	9	7'-4" to 8'-2"	8"	50"
- Add one step						10	Over 8'-2" to 9'-0"	12"	53"
- Add two steps						11	Over 9'-0" to 9'-10"	16"	57"
M3060S - as assembled	GREEN	30" X 60"	29 1/2" x 59 1/2"	16"	144 lbs	9	7'-4" to 8'-2"	2"	50"
- Add one step						10	Over 8'-2" to 9'-0"	6"	53"
- Add two steps						11	Over 9'-0" to 9'-10"	10"	57"
M3060H - as assembled	RED	30" X 60"	29 1/2" x 59 1/2"	16"	158 lbs	12	9'-10" to 10'-8"	19"	61"
- Add one step						13	Over: 10'-8" to 11'-6"	23"	65"

All Rainbow Attic Stair units include additional steps required to achieve ranges shown.

Rainbow Attic Stair colors are specific to rough opening size and extension range.

A. 16"
B. Floor to ceiling height

C. Projection while opening
D. Height from ceiling at point of stair projection.

KEY TO MAP

- 500-Year Flood Boundary 
- 100-Year Flood Boundary 
- Zone Designations*  ZONE B
- 100-Year Flood Boundary 
- 500-Year Flood Boundary 
- Base Flood Elevation Line With Elevation In Feet**  513
- Base Flood Elevation in Feet Where Uniform Within Zone** (EL 987)
- Elevation Reference Mark RM7X
- Zone D Boundary 
- River Mile M1.5

UNDEVELOPED COASTAL BARRIERS†

-  Identified 1983
-  Identified 1990
-  Otherwise Protected Areas

†Coastal barrier areas are normally located within or adjacent to special flood hazard areas.

**Referenced to the National Geodetic Vertical Datum of 1929

***EXPLANATION OF ZONE DESIGNATIONS**

ZONE	EXPLANATION
A	Areas of 100-year flood; base flood elevations and flood hazard factors not determined.
AO	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; average depths of inundation are shown, but no flood hazard factors are determined.
AH	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; base flood elevations are shown, but no flood hazard factors are determined.
A1-A30	Areas of 100-year flood; base flood elevations and flood hazard factors determined.
A99	Areas of 100-year flood to be protected by flood protection system under construction; base flood elevations and flood hazard factors not determined.
B	Areas between limits of the 100-year flood and 500-year flood; or certain areas subject to 100-year flooding with average depths less than one (1) foot or where the contributing drainage area is less than one square mile; or areas protected by levees from the base flood. (Medium shading)
C	Areas of minimal flooding. (No shading)
D	Areas of undetermined, but possible, flood hazards.
V	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors not determined.
V1-V30	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors determined.

NOTES TO USER

This map is for use in administering the National Flood Insurance Program; it does not necessarily identify all areas subject to flooding, particularly from local drainage sources of small size, or all planimetric features outside Special Flood Hazard Areas. The community map repository should be consulted for possible updated flood hazard information prior to use of this map for property purchase or construction purposes.

Coastal base flood elevations apply only landward of 0.0 NGVD, and include the effects of wave action; these elevations may also differ significantly from those developed by the National Weather Service for hurricane evacuation planning. Areas of special flood hazard (100-year flood) include Zones A, A1-A30, AH, AO, A99, V, and V1-V30.

Certain areas not in the special Flood Hazard Areas may be protected by flood control structures.

For adjoining map panels see separately printed Map Index.
