Hello Brad,

Frick Associates has sent us a revised plan to accommodate an increase in flow rate. They have added a tank and 9 Eljen chambers to the already approved system. Other than that the previously approved system remains the same.

Thank you,
 Danielle

Danielle
 Are you changing anything about the original application?

>>> "Danielle Mulkern" <dmulkern@lpamarine.com> 4/1/2015 9:53 AM >>>

Hello,

Attached please find an updated application for a subsurface wastewater disposal system at 0 House Island (House #1). This permit was approved on 1/5/15 (Permit # 2014-02936) but we received a new HHE-200 from Albert Frick, so we'll need to amend the existing permit. Please direct all questions to me.

I have attached the electronic signature page, fast track form and the HHE-200.

Once the permit is issued please return it to me at dmulkern@lpamarine.com

Thank you for your time,
Danielle
