RE: Garage Location at 95 Deerfield Road, Portland, Maine

Dear Mr. Honquest,

On November 26, 2013, we returned to the above mentioned address to survey the location of the newly constructed garage by conventional survey practices utilizing a Total Station.

We have overlaid this data onto the Sketch Plan previously performed by us entitled Sketch Plan of 95 Deerfield Road Portland, Cumberland County Maine, dated June 11, 2013. Prepared for Timothy Honquest 95 Deerfield Road Portland, Maine 04103

Based upon our previous survey work and the data collected on November 26, 2013 it appears that the location of the garage is in compliance of the structural setbacks as shown on the aforementioned sketch plan.

If you have any questions please give us a call. Once again thank you for choosing BEST.

Sincerely,

Boundary Engineering Survey Technology, Inc
