Re: Lighting Modifications at Burger King

Dear Mr. Clark:

Thank you for submitting the photometric plan for the Burger King on Forest Avenue.

We reviewed the plan at a recent staff meeting and a request was made for additional footcandle readings within the residential zone behind Punky's. This is the area from which we have received complaints regarding the lights and speaker system.

We will be forwarding the photometric plan to our lighting consultant for review, in order to give Burger King and its neighbors the most thorough consideration.

Thank you again for your cooperation.

Sincerely,

Sarah Hopkins
Senior Planner
