The existing unit is very old so the new unit looks different and weighs less. But it is being located exactly there the old unit was.

Thank you,
Dave

Is this an EXACT replacement of an EXACT technology in the EXACT location? If not, then we need the items on the checklist.

Thanks for the quick response.

This is a direct replacement of a rooftop unit, so I don't see what items are required. If it is the equipment spec sheet, I've attached it to this email.

Thank you,
Dave

Hi David
Please do not send a check until you receive your invoice.
Also, You are missing several required items. Please review the checklist again. Once we get a complete application, we can enter it.
