Jeff and David,

Please review these final plans as attached and in e-plan - they have been submitted to address your conditions of approval (that were supported by the PB and included in the attached approval letter). I sent them to you earlier this week too.

Needed urgently please.

thank
Jean

Jean,

Attached is the updated site plan drawings with the added tree and landscape strip in the rear of the parking lot and the sewer connection note.

We are still working on the revised photometrics plan.

thanks

David
