Attachments: Figure X-2b from Portland Technical Stds- Street light.pdf

Later also confirmed to DL that
the lamp would be LED; he
confirmed he would let contractor
know. JF (Planner)

David

The spec is:

West Bayside Lighting District
Bayside District Large Scale (fig X-2b in Tech Stds);
height to top of fixture: 24 ft 3 inches;
color: Silver Metallic Natural Aluminum- Tiger Drylac Old Navy silver Y003J

Figure X-2b is attached.

thank you
Jean

David

I will check- and get back to you. Rick would have my head if I get
this wrong!!! (hes on vacation)

thanks
Jean

I guess there are a couple different street lights to pick from that the City has. Can you provide the model for in front of the Marginal Way Bangor Savings Bank.

Thanks
David
