OK, your new issue date is 01/26/15, which means you have until 7/26 before you may need to re-submit if the work does not start.

The project for the Building Permit attached, will be going forward this summer starting Early May. Please let me know what I need to do to get the extension?

Thank you,

What you will need to do is when you are ready to start the project, you will need to file an "extension" so that we can put the issue date further. When you get closer to that date, contact us; it's not a big deal at all.

This project has been postponed till Summer of 2015. (see attached permit)  
Is it possible to extend the permit date until next summer?

Thank you,  
-Tim Braun
