APPLICATION FOR PERMIT FOR
HEATING, COOKING OR POWER EQUIPMENT

August 30, 1957
Portland, Maine,

To the INSPECTOR OF BUILDINGS, PORTLAND, ME.

The undersigned hereby applies for a permit to install the following heating, cooking or power equipment in accordance with the Laws of Maine, the Building Code of the City of Portland, and the following specifications:

Location 148 Bartholomew St. Use of Building Dwelling No. Stories 2 New Building
Name and address of owner of appliance Knud Peterson, 148 Bartholomew St. Existing "
Installer's name and address Eastern Oil & Equipment Co. 27 Portland St. Telephone 3-6595

General Description of Work

To install Oil burning equipment in connection with gravity hot water (conversion)

IF HEATER, OR POWER BOILER

Location of appliance Any burnable material in floor surface or beneath?
If so, how protected? Kind of fuel?
Minimum distance to burnable material, from top of appliance or casing top of furnace
From top of smoke pipe From front of appliance From sides or back of appliance
Size of chimney flue Other connections to same flue
If gas fired, how vented? Rated maximum demand per hour
Will sufficient fresh air be supplied to the appliance to insure proper and safe combustion?

IF OIL BURNER

Name and type of burner Eastern Oil - gun type Labeled by underwriters' laboratories? yes
Will operator be always in attendance? Does oil supply line feed from top or bottom of tank? bottom
Type of floor beneath burner concrete Size of vent pipe 1 1/2
Location of oil storage basement Number and capacity of tanks 1-275 gal.
Low water shut off Make No.
Will all tanks be more than five feet from any flame? yes How many tanks closed?
Total capacity of any existing storage tanks for furnace burners 1-275 existing.

IF COOKING APPLIANCE

Location of appliance Any burnable material in floor surface or beneath?
If so, how protected? Height of Legs, if any
Skirting at bottom of appliance? Distance to combustible material from top of appliance:
From front of appliance From sides and back From top of smoke pipe
Size of chimney flue Other connections to same flue
Is hood to be provided? If so, how vented? Forced or gravity?
If gas fired, how vented? Rated maximum demand per hour

Subject: Application for building permit
to cover construction of piazza at
148 Dartmouth Street

Gentlemen:

Information filed on the application for the above permit is not sufficient to enable us to check on construction work against the Building Code as we are required to do before the building permit is issued.

You will need to file a location plan showing location of the two story piazza to replace the one story piazza of same size with relation to the side and rear property lines and any other buildings on the lot.

We also need a clear foundation and framing plan, indicating location, size, depth below ground and height above ground of the foundation piers with the fact that anchorage is to be made from the woodwork to the piers. The plan should be to scale and the framing part of it should indicate the size of corner and intermediate posts. Together with the fact that they will be one long of timber or have lap splices no less than 18" in length, the method proposed for supporting first and second floor joists on beams and girders, the size of the beams and girders and the method of supporting them upon the posts.

Corner posts and intermediate posts are required to be no less than 4x6 instead of the 4x4 indicated on the plan because the p.c. and piazza is more than one story high. The concrete foundation piers are required to be no less than 8" in least dimension at the surface of the ground and no less than 10" in least dimension at the bottom of the pier instead of the 8" at the bottom indicated on the application. The piers are required to extend at least 6" above the surface of the ground.

I presume there are to be no stairs in the piazza, since none are mentioned. If there are to be steps from the lower level to the ground, these should be shown on the plan and a foundation pier extending not less than 4' below the surface of the ground and no less than 6" above should be shown and provided beneath the bottom of the steps.

Very truly yours,

Warren McDonald
Inspector of Buildings
