Conditions of Approval:

Zoning

1. Separate permits shall be required for future decks, sheds, pools, and/ or garages.
2. This property shall remain a single family dwelling with the issuance of this permit and subsequent issuance of a certificate of occupancy. Any change of use shall require a separate permit application for review and approval.
3. This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work.
4. It is understood that the kitchen on the 2nd floor will be removed in its entirety.
5. It is further understood that the rear deck will be replaced in the footprint area shown on your submitted plans.

Building

1. With the exception of the deck construction activity was not applied for or reviewed as a part of this permit. This permit authorizes a change in ownership ONLY.
2. The basement is NOT approved as habitable space. A code compliant 2nd means of egress must be installed in order to change the use of this space.
3. The existing deck shall be inspected for adequate fasteners and bearing for spans, and modifications may be required.
4. Separate permits are required for any electrical, plumbing, sprinkler, fire alarm HVAC systems, heating appliances, including pellet/wood stoves, commercial hood exhaust systems and fuel tanks. Separate plans may need to be submitted for approval as a part of this process.
5. A graspable handrail (34-38 inches in height) shall be provided on at least one side of each continuous run of treads or flight with four or more risers. Fall protection from exterior decks may be required if floor joist are at or above thirty (30) inches from grade.
6. A photoelectric Carbon Monoxide (CO) detector shall be installed in each area within or giving access to bedrooms. That detection must be powered by the electrical service (plug-in or hardwired) in the building and battery.
7. Hardwired photoelectric interconnected battery backup smoke detectors shall be installed in all bedrooms, protecting the bedrooms, and on every level.
8. R311.5.1 Attachment. Exterior landings, decks, balconies, stairs and similar facilities shall be positively anchored to the primary structure to resist both vertical and lateral forces or shall be designed to be self-supporting. Attachment shall not be accomplished by use of toenails or nails subject to withdrawal.
9. A field inspection will verify compliance with our minimal Housing and Life Safety (Fire) codes.
10. A Code Complaint Egress Window is required in "New Bedroom" locations. Note: Window sills in locations more than 72 inches from finished grade shall be a minimum of 24 inches above the finished floor of the room, unless a window fall prevention devices is installed in accordance with section R612.3.
