---

Tammy,

I would like to withdraw a permit application I have in the system for a dormer @ 72 William St. application # 201300213. The CBL is 117 C019001 and the invoice date is 02/01/2013. I have been working with satisfying the life safety issues for correct egress from the 3rd floor unit and in April they amended their position and the dormer work is no longer necessary. I spoke with Jeannie Bourke this morning and we decided the best thing to do was request the withdrawal from you. Please feel free to call me with any questions.

Thanks-

Will Cheever
