Scope of Work: Maine Medical Center, Brighton Campus

The electrical contractor, Welch Electric will install a new addressable fire alarm system with voice evacuation to replace the existing simplex fire alarm system at the MMC Brighton Campus.

The building is fully sprinkled.

The main panel will be located on the basement level in the engineering office and remote annunciators will be located in vestibule G201 and main switchboard G081.

A new AES radio master box will be installed. In addition, the fire alarm panel will be monitored via a 24 hour remote central station.

The system was designed and drawings have been stamped by Harriman Associates. Norris Inc. will provide the fire alarm equipment; provide the required documentation for permits, and perform final connections and testing according to City of Portland requirements.
