Subject: 16 Rackleff - no building permit required

Hi Tom,

Thanks for providing the documentation of the after fire scope of work at this single family home.

I discussed the details with Mike and Tammy, based on your information, it appears that this project would not require a building permit. As you know, all other subcontractors shall secure permits for their work.

Upon close in inspection, we will assess the work performed to verify again that a building permit is not necessary.

You can notify all subcontractors to apply for permits at this time.

Thank you

Jeanie Bourke
