BUILDING PERMIT INSPECTION PROCEDURES

Please call 874-8703 or 874-8693 (ONLY)

to schedule your inspections as agreed upon

Permits expire in 6 months, if the project is not started or ceases for 6 months.

The Owner or their designee is required to notify the inspections office for the following inspections and provide adequate notice. Notice must be called in 48-72 hours in advance in order to schedule an inspection:

By initializing at each inspection time, you are agreeing that you understand the inspection procedure and additional fees from a "Stop Work Order" and "Stop Work Order Release" will be incurred if the procedure is not followed as stated below.

A Pre-construction Meeting will take place upon receipt of your building permit.

Footing/Building Location Inspection: Prior to pouring concrete or setting precast piers

Framing/Rough Plumbing/Electrical: Prior to Any Insulating or drywalling

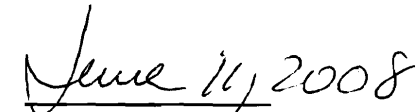

Final inspection required at completion of work.

Certificate of Occupancy is not required for certain projects. Your inspector can advise you if your project requires a Certificate of Occupancy. All projects DO require a final inspection.

If any of the inspections do not occur, the project cannot go on to the next phase, REGARDLESS OF THE NOTICE OR CIRCUMSTANCES.

CERIFICATE OF OCCUPANICES MUST BE ISSUED AND PAID FOR, BEFORE THE SPACE MAY BE OCCUPIED.

---	---

Dept: Zoning **Status:** Approved with Conditions **Reviewer:** Ann Machado **Approval Date:** 06/04/2008

Note: **Ok to Issue:**

- 1) This property shall remain a two family dwelling. Any change of use shall require a separate permit application for review and approval.
- 2) This permit is being approved on the basis of plans submitted. Any deviations shall require a separate approval before starting that work.

Dept: Building **Status:** Approved with Conditions **Reviewer:** Chris Hanson **Approval Date:** 06/10/2008

Note: **Ok to Issue:**

- 1) received granted site exemption as of 06/10/08. /gg filed with permit (Chris)
- 2) Open risers are permitted, provided that the opening between treads does not permit the passage of a 4" diameter sphere.
- 3) Fastener schedule per the IRC 2003
- 4) As discussed during the review process, ballusters must be spaced with less than a 4" opening between each.
- 5) The design load spec sheets for any engineered beam(s) / Trusses must be submitted to this office.
- 6) Permit approved based on the plans submitted and reviewed w/owner/contractor, with additional information as agreed on and as noted on plans.
- 7) Frost protection must be installed per the enclosed detail as discussed w/owner/contractor.
- 8) Separate permits are required for any electrical, plumbing, or HVAC systems. Separate plans may need to be submitted for approval as a part of this process.

Comments:

6/3/2008-amachado: Spoke to Jerry Muto. Blueprints had the deck at 4' deep by 9' wide, but the application description said the deck was 10' x 12' and the plot plan had it as 10' x 18'. Jerry said to go with the 4' x 9' deck as shown on the blueprints and confirmed this in writing with an email. If the owners decide to have a bigger deck, he will amend the permit.

6/4/2008-amachado: Gave siteplan exemption form to planning.
