## Violation Notice

Dear Martha Elkus,

The Portland Fire Department responded to an oven fire in the front room food-preparation area on the 25<sup>th</sup> day of October, 2007. At which time Jeanie Bourke, Division Director conducted a partial food service inspection requiring potentially contaminated food products destroyed.

A follow-up health inspection of your establishment was made on the 5<sup>th</sup> day of November, 2007.

The inspection report dated November, 5<sup>th</sup> 2007 indicated unsatisfactory sanitary condition, primarily non-effective pest control methods due to the un-ventilated flour milling process.

In order to continue milling flour an approved ventilation system must be installed in accordance with § 502.1 of the International Mechanical Code, 2003®.

The next inspection of your establishment will be carried out within ten (10) days, at which time it is required that all operational and maintenance practices comply with the standards set forth in Chapter 11 of the City's Ordinance. Furthermore, a building/ HVAC permit application must be submitted to this office for an approved milled-flour-ventilation system by the 25<sup>th</sup> day of February, 2008.

If your establishment is graded unsatisfactory upon re-inspection, the matter will be referred to the City's Corporation Counsel for action pursuant to § 15.8 of the License Ordinance. Action may include license suspension or revocation and possible civil penalties pursuant to § 1-15.

Sincerely,

Jon Rioux,  
Code Enforcement Officer

CC: Jeanie Bourke, Inspection Services Division Director, Penny Littell, Esq. & Greg Cass, Captain
