This is NOT a permit, you may not commence ANY work until the permit is issued. If you are in a Historic District you may be subject to additional permitting and fees with the Planning Department on the 4<sup>th</sup> floor of City Hall

# BUILDING PERMIT INSPECTION PROCEDURES

Please call 874-8703 or 874-8693 to schedule your inspections as agreed upon

Permits expire in 6 months, if the project is not started or ceases for 6 months.

The Owner or their designee is required to notify the inspections office for the following inspections and provide adequate notice. Notice must be called in 48-72 hours in advance in order to schedule an inspection:

By initializing at each inspection time, you are agreeing that you understand the inspection procedure and additional fees from a "Stop Work Order" and "Stop Work Order Release" will be incurred if the procedure is not followed as stated below.

\_\_\_\_\_ **Pre-construction Meeting:** Must be scheduled with your inspection team upon receipt of this permit. Jay Reynolds, Development Review Coordinator at 874-8632 must also be contacted at this time, before **any** site work begins on any project other than single family additions or alterations.

\_\_\_\_\_ **Footing/Building Location Inspection:** Prior to pouring concrete

\_\_\_\_\_ **Re-Bar Schedule Inspection:** Prior to pouring concrete

\_\_\_\_\_ **Foundation Inspection:** Prior to placing ANY backfill

\_\_\_\_\_ **Framing/Rough Plumbing/Electrical:** Prior to any insulating or drywalling

\_\_\_\_\_ **Final/Certificate of Occupancy:** Prior to any occupancy of the structure or use. NOTE: There is a \$75.00 fee per inspection at this point.

Certificate of Occupancy is not required for certain projects. Your inspector can advise you if your project requires a Certificate of Occupancy. All projects DO require a final inspection

\_\_\_\_\_ **If any of the inspections do not occur, the project cannot go on to the next phase, REGARDLESS OF THE NOTICE OR CIRCUMSTANCES.**

**CERIFICATE OF OCCUPANICES MUST BE ISSUED AND PAID FOR, BEFORE THE SPACE MAY BE OCCUPIED**

**RE: Statement of Final Inspections, Sprint PCS site BS62XC009 located at 509 Forest Avenue, Portland, Maine**

Dear Mr. Nugent:

Infinigy Engineering has been contracted by Sprint PCS to complete construction observation services for the above referenced site. Infinigy will be making periodic inspections throughout the construction process, as well as a final inspection.

Infinigy's inspections will include, but will not be limited to, verification that construction is being performed in compliance with all relevant building codes, as well as being in compliance to Construction Drawings prepared by Infinigy Engineering, dated April 14, 2004. Specific inspections will include:

1. Construction and Installation of the proposed Sprint PCS equipment frame to verify all welds and connections are made appropriately.
2. Installation of the proposed power and telephone services to the Sprint PCS equipment.

Upon completion, Infinigy will prepare and submit a letter to your office certifying that construction was completed in general conformance to the construction documents and that the installation meets all applicable codes. Any deviations or discrepancies in construction from the Construction Drawings will be noted.

Please do not hesitate to contact me at (518) 434-2288, if you have any questions or comments.

Very truly yours,

Paul M. Penman, P.E.  
Infinigy Engineering PLLC

Permit # 040522 127 A 2

May 4, 2004

Mr. Joshua Mostow  
Sprint Spectrum, LLC  
Crossroads Corporate Center  
International Boulevard  
Suite 800  
Mahwah, NJ 07495

**RE: Structural Analysis for the Sprint Equipment Installation at the Forest Avenue Site  
Located at 509 Forest Avenue, Portland, Maine  
Sprint # BS62XC009A**

Dear Mr. Mostow:

As requested, Infinigy Engineering has performed a structural analysis for a portion of the above referenced facility. This analysis is for the sole purpose of determining whether or not the building's structural system is capable of supporting the loads imposed by the proposed Sprint co-location at this site. This letter presents the findings and conclusions of our analysis.

Original structural, construction drawings of the building were not available for our use, however, architectural floor plans showing column locations were provided. In addition, information relative to the actual column size and stair well exterior wall construction was provided. Also referenced were construction drawings prepared by Infinigy Engineering, dated April 14, 2004, which show the intended equipment location within the structure and weights of the equipment. Per the drawings, the proposed loads include two Modcell cabinets and two battery cabinets weighing 1,210 pounds and 2,825 pounds each respectively.

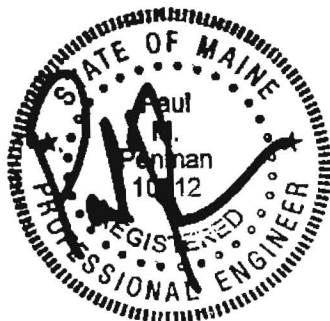

Based on the information provided, we were able to perform an analysis of the existing structure, as well as a comparison of existing and proposed loads. In doing this, the code defined dead, live and snow loads that would have been used for the original structural design were compared to the proposed loads.

Based on the information provided, our analysis indicates that the existing structure is capable of supporting the proposed loads in the configuration shown.

The building structure would need to be re-evaluated if future loads are added.

Please do not hesitate to contact me at (518) 434-2288, if you have any questions or comments.

Very truly yours,

Paul M. Penman, P.E.  
Infinigy Engineering PLLC

**From:** "Peter Giard" <pgiard@atlanticwestern.com>  
**To:** <mjn@portlandmaine.gov>  
**Date:** 05/11/2004 12:33:28 PM  
**Subject:** 509 Forest Ave, Portland Sprint PCS roof top installation

Dear Mr. Nugent:

Thank you for getting back to me regarding the Sprint PCS BP application for 509 Forest Ave. Based upon our conversation please find attached:

\* Structural Letter from our A&E Infinigy Engineering. This letter states their findings and conclusions regarding the structural capacity of the building.

I hope this letter address the Structural Analysis component.

Regarding the Project Spec Book, I have been told by my A&E that all the project specs are written into the plans presented at the Building Office. Pages C-1 and C-8 contain specific specs of the structural building components, the antenna installation and the electric details for grounding and electrical connections. Is there more required? Since this is the first building permit I have filed for in Maine I am not sure what is customarily used in Maine. Whereas this is such a small and simple installation I think you find all the specific incorporated into the plans, especially pages C-1 and C-8.

Finally, do you have a preferred form for the Statement of Special Inspections? In Massachusetts we use a Construction Control Affidavit and it can be found at any Building Inspectors Office. Since I unfamiliar to the process in Maine, I was wondering if any such form or template exists?

I look forward to you response so I can finalize whatever items are needed to issue the permit.

Sincerely

Peter Giard
