Re: Sprinkler System NFPA Compliances for our work completed September 24, 2013 at Portland Ballet, 517 Forest Avenue, Portland, ME. High Tech Fire Protection made modifications on the fire sprinkler system to drop and expose the fire sprinkler heads from above the existing ATC in the fire egress hallway and install a new fire sprinkler head in the storage closet area, per the requirements of John Martell (PFD).

High Tech Fire Protection hereby guarantees the design, materials and workmanship supplied by High Tech Fire Protection on the project entitled Portland Ballet located at 517 Forest Avenue, Portland, ME to meet or exceed all requirements necessary for an approved NFPA #13 Automatic Fire Sprinkler System, and State and local authority.

\*This warranty "excludes" all areas of the existing building that were not involved in this modification\*
