Hi Brad,

We apologize for not getting back to you sooner on this.

We do not have any issues with the project you've described, providing:

- the excavation is completely restored in-kind
- the outfall is at about the same height as, with a similar appearance to, the existing outfall nearby

Thanks please let us know if you have further questions.

Rob

Hello Deb and Rob,

I have not heard back from either one of you on this topic.

I have received my Maine Dept. of Environmental Protection and Army Corp of Engineers permits at this point.

I am working to figure out the Parks/ Land Bank needs.

If there are no issues with HP can you please let me know.

thanks

Brad

Hello Deb and Rob,

I am not sure what action may be required on the Historic Preservation side with just crossing Baxter Boulevard with a pipe so I put a quick memo together for your review.

I also attached a permit which helps explain the impacts within Back Cove.

The impact as mentioned to the Boulevard itself will be minimal.

Not sure any action is required on your part but wanted to check.

Let me know or give a call if you have questions.

Brad
